

Insights from the Dashboard

Insight 1:

Technology is the highest revenue-generating category with over \$0.7M in sales, making it the key driver of business growth.

Insight 2:

The West and East regions consistently outperform Central and South in both sales and profit, suggesting resource allocation should prioritize these regions.

Insight 3:

Sales show a strong upward trend from 2014 to 2017, indicating healthy business growth, however discount rates above 0.4 correlate with negative profit margins.
